Not "so long in the past" as to oring to him or to the country forgetfulguged in securing evidence that he had ees elected to Congress, and uncarthing a conspiracy to keep bim out of his seat, That murder may seem to have been long, ago, but it has not been quite effected from memory by the kindred outrages that have rowded the past year's buttory.

The Democratic members, by this rote, plainly accounce their deermination to fight all the contested bases, no matter what may be their merta; for perhaps no two contests ever brought before an E cetton Committee have been more thoroughly justified even on the face of the evidence, than the West Virginia ones. It is understood that the report of the committee will be drawn by Mr. Rowell, the chairman, and that the Mr. O'Ferrall. The cree will be called up in the House as soon as the new rules are adopted.

### House Rules Adopted.

The new code of rules was adopted in the House yesterday by a vote of 161 to 148 as they were reported from the committee. The Democrats offered various amendments, the purpose of which was to anable mental, the purpose of which was an enable them to remin the jugat to fillbaster, but all these a sempta were frostrated. The changes that have been made in the old rules are in the interest of the prompt transaction of public business and will be beartily inderect by the country. The by the Democrate in and out of Congress trave store made considerable noise to the past week or two, but the fact remains that the intelligent masses cordially approve and admire the firm stand taken by Speaker Reed.

It is only necessary to examine the Democratio papers to appreciate the instance ty of their commands upon the Speaker.

They assert that the people will rehel at post the syramay and that he has killed the Republican party, but if these things were true the Deinocontic ecitors would be singing with by unstend of gasebing their know that the people are with Mr. Reed, who has won a signal victory for them, and to this fact may be attributed their

Indeed, we doubt if in the history of jestnahem in this Protect and Secure Your Income State there has been an instance when a paper has been so absolutely discredited by the press. This repudiation is not coned of Republican journale, as the reputable Democratic papers positively refuse to sanction its demoralising and inexcusable advocacy of the mullification of law Some of them are opposed to probibition, | but white urging the repeal of the law they still insist that it should be enforced as long as it remains spen the statute oks. The ram organ sot only stands alone as the repodiated attorney of a disreputable cause, but the calibre of its oroned defense is as straty as the oruse CAR/ENTERS WANTED, BECCOL WORLD limelf.
